Dear Family member:

The power of ONE alone is small but added to another multiplies. Here at **Serving Our World** we are always on the alert for the one child that sits alone, plays alone or walks alone. As we go from city to city, or village to village, our eyes and heart are looking for those that have been passed over and don't have the loving support of a family.

Just last month we were sharing our vision and passion, connecting people to the unlimited privilege that awaits those who get plugged in to the ONE in need. And the power families together can have by building and strengthening others with an outstretched hand.

It is the desire in each of us to do all we can to help others and to unite each one to His greater purpose. ONE by ONE people came forth and showed that ONE plus ONE is possible.

Our Heavenly Father sent One and He in turn connected with twelve others, believing that they would carry on. Well they did, as we are a result to that act of love. Getting plugged into others in need like He did will create an unlimited change, giving a future for those affected.

I was recently reading in the Bible a true story about a young girl named Esther and how this small orphan was affected by someone reaching out to her with love and raising her. When she was grown she became favored by the King and eventually became the Queen of a country!

She also became the instrument to free and bring deliverance to her people who were sentenced to be executed. She changed the future of a country and a whole nation setting them free and in turn they prospered! All because of ONE girl and the ONE who reached out to her!

Today in the southern Tsunami area we have another Esther and her brother Timothy at the beach, who are being cared for by the **Serving Our World** family members. They are just ONE of the many children and families in the area that need someone to connect with and to be cared for.

The unlimited potential that we shared above can become the answer to the equation. YOU + ONE = life time results and that all adds up to a better future for individuals, siblings, families and whole communities as we team up to make this lasting difference.

Carrying His vision is a responsibility given to each of us. Caring for others is a place to start, **Serving Our World** has many families and children who need all of us. And all of us when added up can make that difference in a life TODAY!

Whether it's ONE child, ONE group of siblings, ONE family or ONE *Good Life Home* it connects you to helping someone else. And that difference will have life long results for your family and your community.

Get connected today. There is power in numbers. Don't be left alone, join in to become a **Serving Our World** family member. Become part of the solution by adding yourself to the lives of Esther and Timothy and others needing to be connected to a life long change.

Each one, caring for another.

Michael Thomforde
Founder/President

PS: The *Good Life Home and Center* is part of the total solution to changing a whole village. We need you to help us reach out by your giving to make this happen in the lives of children and families needing a loving home and education that will equip them for the future!
