

October, 2005

Dear Family member:

What a wonderful blessing it is to meet people who really have a heart to reach out and get involved in making great things happen in the lives of others.

Recently we were invited to Kansas City to share what **Serving Our World** is all about and when we were leaving we met one such lady. Over a hundred needy children are going to be feeling the warmth of her time, talent and treasure this Christmas Season.

Let me introduce you to Ernestine Fields. She sows in several ways. She makes beautiful blankets with custom bags, hats and wraps. When we met her she was so happy as she wanted to give what she had been making to children.

Well, this week we received ten boxes filled with just what we needed. She is also sewing more for the new beds at the *Good Life Home & Center* in Thailand. What a joy for the boys and girls who will be moving in.

Ernestine is a delight to talk with and so excited to be able to do something for the many children **Serving Our World** reaches every day.

Look at the progress of the *Good Life Home & Center* and it's all because people like you are helping and making it possible. The land we asked for help with will provide all the rice needed for the children, staff and some to give away in the village. And it's now all paid for!

We are so thankful for all your help and giving! Our next trip is in November to December to host our yearly Christmas party in the village for the needy. And also to purchase the many items that are still needed for the opening of the *Good Life Home & Center*.

I know you want to be a part of this life giving project! We are giving you the opportunity to help in any way you can whether it's helping with beds, clothes or with kitchen needs. You can look over our "Care Catalog" and see how far what you give goes in providing the simple things in life that will be a blessing to these precious children for years to come!

Last Christmas we had hundreds of boys, girls and adults from the village attend this special event. This year we would like to prepare a banquet dinner as well as fill up Care Bags with much needed items that they consider luxury items, such as tooth brushes, tooth paste, soap, laundry detergent, towels and cooking supplies with of course toys for the children and others.

Join in and be a part of the **Serving Our World** Family Christmas! One they won't forget as this will not only meet their urgent needs but will touch their heart to know you care so much!
