YOUR LOVE TRANSFORMS LIVES!

This month we want to share with you how important the role that YOU play is in the life of those in our village. In the years prior to the *Good Life Home* there hasn't been a safe guard in place to watch over or influence this rural area. But now in the center of the surrounding villages, with people like YOU, there is a *Good Life Home* and a community that stand on behalf of children at risk.

Try to imagine Som, a nine year old girl whose parents died of aids, and what her life has been like. She watched her mom and dad suffer on a daily basis as she would come home from school. Her parents were her link to the future. When she needs comfort the most her home is empty. How she hurts inside as those she loves have passed on and she

"We then who are strong should bear others weaknesses and not to please ourselves. Let us be concerned about our neighbor for his good."

~Paul, the Apostle

is faced with the fear of what will become of me.

But today is a great day for her and the many other children that have also encountered similar circumstances, as the *Good Life Home* has come to their village with hope and provided them with a new future. Som and the others will be given a new beginning as they move into the *Good Life Home*! They will be surrounded with a life that will be full of opportunities, letting them know that all is not lost.

To do this we need YOUR help by responding to her needs and the needs of the other boys and girls like her that are moving in this month. As you give you can be confident that in supporting the growing family in the *Good Life Home* you rescue children like Som. You help her to continue to fulfill her dreams all because YOU care and are willing to become part of the solution.

Would YOU sow into a life each month and help by doing something physical to change the future of a child?

Why are you needed? Each year over 200,000 children, mostly girls, are sold or trafficked just in Thailand alone and forced into brothels. And for up to two years or more they are sexually exploited. Help rescue them and give them a New Life!

Touching Lives, Building Futures

Take a look at what YOU are doing through Serving Our World

east timor

Yes, YOUR support is reaching the mountain tops! As I continue my account of what took place on my last trip I want to tell you about a mom and her five children. One of the leaders led me to her hut, a hut made of bamboo with dirt floors and a thatched roof, a simple place as you can see. She told me all her children come to the **Serving Our World** project and attend our classes. The children were quiet around me as she went on to say how much the project means to them. She thanked us all because it is helping to provide what she can not. After she was done all the children continued to have fun, fellowship and food, all excited running and laughing. All because of YOUR donations!

It is amazing what \$8.00 dollars for a child can do each month! We would like to double the outreach for the 100 children and help more in this area by providing more meals and with YOUR support we can! Greater things can happen if you'll join with us Today!

Margie

Margie Lang from California, a published writer, is volunteering at the *Good Life Home* Campus to teach English to the children and staff. She is a loving influence in many ways, helping the children through the difficult circumstances they have encountered.

Look at all the children in this temporary bamboo hut that we use each month. With four different age groups of children to teach each group has to sit on the floor and wait their turn, as it only has one room. Help us provide a more suitable facility so more can be achieved and His love can be shown every day! Together we can build a steel building that not only has four classrooms but also bathing facilities to promote hygiene programs, along with a water storage tank for the dry season that is coming in a few months.

Help leave a lasting structure! YOUR giving towards this project will be helping children in this remote village to learn as well as provide a place where the whole community can come together for meals and fellowship.

Serving Our World is a member of GuideStar, organization for accountability of non profits. Registered in the USA as a 501c3 charity, also registered in East Timor as an International NGO.

Message from the founder

In each day of our lives we can repeat what was done, we can stick to the same routine or we can be challenged to step out and to do something great for someone in need. Whatever amount, when given in compassion and sacrifice will bring about a change in our lives.

There is no greater sacrifice than fulfilling the needs of others and the pleasure of witnessing new hope that is seen in an expression on the face of a child. Today open hearts to the good news by your generous gift of compassion.
